Research

2019 – Present	Doctoral Research Fellow <i>Department of Decision Sciences & MIS</i> Led research that applied optimization methods and models to machine learning and land conservation.	Drexel University
----------------	---	--------------------------

Research Area #1: Mixed-Integer Nonlinear Optimization + Conservation Decision-Making

- Developed an open source decision-making tool for spatial conservation planning using a novel optimization framework that minimizes a species' predicted extinction risk.
- Framework allows for more complex decision inputs compared to existing spatial planning models, and can be paired with existing ecological software.

Research Area #2: Nonlinear Optimization + Machine Learning

- Advanced unconstrained optimization methods for nonlinear programming by improving the step direction calculation in nonlinear conjugate gradient methods.
- Algorithm exhibited reduced iteration count when solving large instances of machine learning problems.

Research (continued)

- 2018 – **Research Assistant** *University of Utah*
 2021 *Department of Mathematics*
- Developed mathematical models to understand the response of castration-resistant prostate cancer under various treatment regimens.
 - Simulated the dynamics of biological systems as differential equations, formulating the models with differing mechanism complexity.
 - Evaluated modern treatment regimens under this scheme and disseminated findings to academic and medical audiences.
- 2018 **Computer Scientist Intern** *United States Air Force*
Hill Air Force Base
- Conducted research related to improving software for USAF aircraft in the Software Engineering Group.
 - Hired under the Premier College Intern Program and earned a position in the PALACE Acquire program.

Teaching

- 2019 – **Instructor** *Drexel University*
 Present *Department of Decision Sciences & MIS*
- Created, organized, and delivered instructional materials for undergraduate and PhD classes/workshops.
 - Earned two student-nominated awards for teaching performance, along with course evaluation scores above the college and department average.

Awards & Grants

2024	NCEAS Travel Grant <ul style="list-style-type: none">• Funding to attend the National Center for Ecological Analysis and Synthesis (NCEAS) Environmental Data Science Summit at UC Santa Barbara.	NCEAS
2023	Rising Scholar <ul style="list-style-type: none">• Selected from a competitive pool of Ph.D. and postdoctoral scholars to present research at the Rising Scholars Conference hosted by the MIT Sloan School of Management.• One of the first from Drexel University, out of the 225+ Rising Scholars from 2020-2023 cohorts.	MIT Sloan
2023	Graduate Student Travel Subsidy Award <ul style="list-style-type: none">• Funding to present at the INFORMS Annual Meeting in Phoenix, AZ.	Drexel University
2023	DEI & Environment and Sustainability Innovation Micro-Grant <ul style="list-style-type: none">• Awarded to research projects with contributions to DEI or environmental sustainability.• Project: “Black-box optimization for reserve design in biodiversity conservation”.	Drexel University
2023	Teck-Kah Lim Graduate Student Travel Subsidy Award <ul style="list-style-type: none">• Funding to present at the SIAM Conference on Optimization in Seattle, WA.	Drexel University

Awards & Grants (continued)

2023	SIAM Student Travel Award • Funding to present at the SIAM Conference on Optimization in Seattle, WA.	SIAM
2023	ESIIL Travel Grant • Funding to attend the Environmental Data Science Innovation & Inclusion Lab (ESIIL) Innovation Summit at CU Boulder.	ESIIL
2022	Teaching Assistant Excellence Award • Recognizes graduate students who exhibit exemplary commitment to student learning, based on nominations and evaluations from undergraduate students and faculty.	Drexel University
2021	Teaching Assistant Excellence Award (Highly Commended) • Recognizes graduate students who exhibit exemplary commitment to student learning, based on nominations and evaluations from undergraduate students and faculty. • Award committee recognized finalists as “highly commended”.	Drexel University
2021	SIAM Student Travel Award • Funding to present at the SIAM Conference on Optimization.	SIAM
2019	Undergraduate Research Scholar Designation • Awarded to undergraduate students who conducted two semesters of research, presented at the Undergraduate Research Symposium, and published in the Undergraduate Research Journal.	University of Utah
2019	Research Experience for Undergraduates (REU) • Grant for undergraduate students conducting research with a faculty member. • Advisor: Professor Frederick Adler. • Project: Mathematical Modeling of Adaptive Therapy in Prostate Cancer.	University of Utah
